

CompTIA A+

Certification

Exam Code: 220-701 | 220-702

Duration : 4 Days

Fee : RM 2,200.00

If you are getting ready for a career as an entry-level information technology (IT) professional or personal computer (PC) service technician, the CompTIA® A+® Certification course is the first step in your preparation. The course will build on your existing user-level knowledge and experience with personal computer software and hardware to present fundamental skills and concepts that you will use on the job. In this course, you will acquire the essential skills and information you will need to install, upgrade, repair, configure, troubleshoot, optimize, and perform preventative maintenance of basic personal computer hardware and operating systems.

Prerequisite Courses

- No Prerequisites listed for this course

- Identify personal computer security concepts.
- Support personal computer security

Course Outline

Lesson 1

Personal Computer Components

Lesson 2

Operating System Fundamentals

Lesson 3

PC Technician Professional Best Practices

Lesson 4

Installing and Configuring Peripheral Components

Lesson 5

Installing and Configuring System Components

Lesson 6

Maintaining and Troubleshooting Peripheral Components

Lesson 7

Troubleshooting System Components

Lesson 8

Installing and Configuring Operating Systems

Lesson 9

Maintaining and Troubleshooting Microsoft Windows

Lesson 10

Network Technologies

Lesson 11

Installing and Managing Network Connections

Lesson 12

Supporting Laptops and Portable Computing Devices

Lesson 13

Supporting Printers and Scanners

Lesson 14

Personal Computer Security Concepts

Lesson 15

Supporting Personal Computer Security
