

# MCSA 2012

Exam Code: 70-410 | 70-411 | 70-412

Be a Microsoft Certified Professional. If you're a computer professional – or want to be one – it's the best way to show employers, clients and colleagues that you have the knowledge and skills required. And to prove that you're an expert who has what it takes to meet the industry's demands. Microsoft's certification program is one of the industry's most comprehensive programs for assessing and maintaining software-related skills, and technical managers worldwide as a mark of quality recognize the MCSA 2012 designation.

## MCSA 2012

The Microsoft Certified Solutions Associate (MCSA): Windows Server 2012 certification shows that you have the primary set of Windows Server skills that are relevant across multiple solution areas in a business environment. The MCSA: Windows Server 2012 certification is a prerequisite for earning the MCSE: Server Infrastructure certification, the MCSE: Desktop Infrastructure certification, or the MCSE: Private Cloud certification.

The MCSA 2012 certification can help you develop and validate your skills in your current position, or propel you toward a future role, such as:

- Windows Server Administrator
- Server Systems Administrator
- Monitoring Operator
- Network Administrator

The Microsoft Certified Solutions Associate (MCSA 2012) credential is the leading certification for Windows Server 2012, providing widely recognized, objective validation of your ability to perform critical, current IT job roles by using Microsoft technologies to their best advantage.

## The MCSA 2012 certification

Focuses on a specific job role, allowing for in-depth validation of your skill set.

Allow you to earn more than one certification, demonstrating your abilities across multiple roles.

This certification validates your ability to work with Windows Server 2012 in a real-world business context.

## Course Modules

There are three modules with examination to be passed in order to obtain MCSA 2012 Certification.

Exam Code	MCSA Modules
70-410	Installing and Configuring Windows Server 2012
70-411	Administering Windows Server 2012
70-412	Configuring Advanced Windows Server 2012 Services
